Career Objective

Motivated Computer Science student with knowledge of Core Java, Object-Oriented Programming (OOPS), HTML, CSS, JavaScript, MySQL, and GitHub. Passionate about Java application development, problem solving, and building scalable software solutions. Quick learner with hands-on academic project experience and strong teamwork skills.

Education

Bachelor of Technology (Computer Science and Engineering (Data Science)) Kallam Haranadhareddy Institute of Technology (KHIT), Guntur	2023 – 2026 GPA: 7.04
Diploma(Mechanical) Sri Mittapalli College of Engineering, Guntur	2016 – 2019 GPA: 6.4
SSC (10th Grade) Sri margadarsi High School , Guntur	2015 – 2016 GPA: 5.7

Technical Skills

Programming Languages: Java (Core Java)

Java Concepts: OOPS, Collections, Exception Handling, File Handling, JDBC (Basic)

Database: MySQL

Version Control: Git, GitHub

Tools: VS Code, Tableau, Eclipse IDE

Projects

1. Heritage Treasure – In-Depth Analysis of UNESCO World Heritage Sites

Technologies Used:

Python, Pandas, NumPy, Flask, HTML, CSS, Tableau, MS Excel

Project Description:

- Collected and processed UNESCO World Heritage data from multiple sources.
- Performed data analysis to identify trends and insights.
- Created interactive dashboards using Tableau for data visualization.

Role & Responsibilities:

- Collected and cleaned UNESCO World Heritage data.
- Analyzed data using Python (Pandas) and Excel.
- Developed interactive dashboards using Tableau.
- Built a web application using Flask, HTML, CSS, and Bootstrap.
- Collaborated with team members to deliver project requirements.

2. TravelGo – Travel Booking Web Application

Technologies: HTML, CSS, JavaScript, Python (Flask), MongoDB, Git, GitHub

Project Description:

- Developed a responsive travel booking application for bus, train, flight, and hotel reservations.
- Implemented secure user authentication and booking management.
- Integrated MongoDB for efficient data storage.

Roles & Responsibilities:

- Designed responsive user interfaces using HTML, CSS, and JavaScript.
- Developed backend functionality using Flask.
- Integrated MongoDB and tested the application.

Certifications

APSCHE Certified Two-Wheeler Mechanic

2019
